# giza

CORNER SET

Carrying the clean lines of geometric architecture to the open air, the Giza Corner Set draws a refined frame within your garden.

Designed with a ‘less is more’ philosophy, the model adapts the flawless upholstery technique of indoor furniture to the outdoors, creating a seamless silhouette.

Its fixed, water-repellent fabric technology preserves this crisp form while defying sudden summer showers or pool-side splashes.

Crafted for you to leave the city’s tempo behind and create your own orderly sanctuary—a functional stance that makes no compromises on aesthetics.

# Çınar

SEATING SET

*The* Çınar collection is built upon the metaphor of the “protective shadow” of the ancient tree from which it takes its name.

The wide and inclusive form in its design offers not just a physical seating area, but a sense of a safe haven that gathers your loved ones.

While the unshakable stance of its skeletal structure and the craftsmanship in the details resist time like the trunk of a centuries-old plane tree; its structure enveloping you with comfort offers a deep-rooted sense of belonging.

Beyond temporary trends, a permanent monument that settles in the center of your garden, where stories accumulate beneath it.

# Çınar

DINING SET

The Çınar Dining Group is designed not just as a place to eat, but as a meeting center where memories are shared.

It displays the unifying power it takes from its name with its wide table top and the embracing form of the chairs surrounding it.

While the strong leg structure that supports crowded tables provides a sense of solid confidence; the craftsmanship felt in every detail turns an ordinary meal into a feast.

A deep-rooted space of togetherness that gathers all members of the family under the same shadow, where the conversation never ends.

# nairobi

CORNER SET

*The Nairobi series goes beyond being just “outdoor furniture,” exhibiting a statuesque stance in your garden.*

Sharing the same superior upholstery heritage as Giza, this design maintains its pristine form in all seasons thanks to its fixed, water-repellent fabric covering.

It is designed to merge the familiar, enveloping comfort of your living room with the freedom of the outdoors.

With its fluid lines and monolithic appearance, Nairobi is not just a seating area, but a distinguished break point where you can catch your breath amidst the chaos of metropolitan life.

# valentin

CORNER SET

The Valentin collection stands as proof that elegance is not fragile, but rather powerful.

Supporting the passionate tone in its name with the uncompromising and solid building blocks of its design, this series creates an emotional focal point in your garden.

Where fluid lines meet a dense and full form, Valentin transforms an ordinary seating experience into an aesthetic ritual.

A stance that is easy on the eyes but deeply felt in its presence, possessing character and nobility.

# valentin

DINING SET

The Valentin Dining Group transforms tables set in the open air from mere dining areas into an aesthetic feast.

The plump and self-assured form, characteristic of the series, reveals itself in the table design as well, giving the space a strong identity.

With its wide surface and the sturdy leg structure supporting it, it is the unshakable host of both intimate celebrations and crowded banquets.

Valentin is a noble and passionate stage that will witness the most special moments you will spend in your garden.

# Oslo

CORNER SET

Carrying the cool and fresh spirit of the North to your garden, the Oslo series represents Scandinavian simplicity in its purest form.

Produced with the same superior upholstery technology as the rest of the collection, this design maintains its crisp shape in all weather conditions thanks to its fixed water-repellent fabric.

With its lean silhouette stripped of unnecessary details and functional comfort, Oslo offers a peaceful harbor where you can take refuge when you want to get away from the noise.

A simple yet strong stance that appeals to both the eye and the body.

# vallera

SEATING SET

The Vallera series reinterprets the sharp boundaries of minimalist design with a thick cushion structure focused on high comfort.

Wrapping the light yet strong structure offered by the all-aluminum frame with the textural richness of olefin ropes, this design achieves a warm balance with iroko wood touches in the details.

Visually clear and decisive, yet possessing a soft structure that draws you in upon experience.

Vallera combines industrial elegance with the highest level of garden comfort, making time spent outdoors truly privileged.

# loya

SEATING SET

The Loya collection brings the sense of heartfelt loyalty it is named after to your garden with its embracing soft and organic forms.

Its fluid and curved lines, stripped of sharp corners, mimic the relaxing balance that naturally occurs in nature.

Yet, beneath this soft appearance lies a strong and determined skeletal structure that defies time.

Loya is not just furniture where you sit and rest; it is a loyal sanctuary that settles in the heart of your garden, embraces you, and connects you to the earth.

# venedik

SEATING SET

The Venedik series draws inspiration from the mesmerizing balance of its namesake city upon the waters.

The continuity of horizontal lines in its design captures a fluid and serene rhythm, much like gondolas gliding through a calm canal.

Yet, beneath this elegant flow lies an unshakable skeletal structure that grips the ground with force and instills confidence.

Like an engineering marvel resisting water and time, Venedik offers both visual freshness and structural weight in your garden.

A noble stance accompanying the flow of time, where you can chart your own serene route amidst the chaos.

# venedik

DINING SET

The Venedik Dining Group brings together the architectural intelligence of its namesake city with a functional aesthetic.

While its sturdy aluminum frame provides unshakable confidence just like the foundations of Venice; the ceramic top offers a noble texture reminiscent of the smooth surface of water.

The most impressive part of the design lies in its surprises: Its mechanism, which can be effortlessly opened from both sides, removes boundaries and makes room for crowded tables

Just as narrow canals open up to wide squares, the Venedik table provides a fluid transition from the most intimate moments to the most enthusiastic banquets.

# lina

SEATING SET

Blending the industrial strength of aluminum with the natural warmth of iroko wood, the Lina series offers a unique aesthetic born from the harmony of contrasts.

The collection's signature fixed upholstery and water-repellent fabric technology meets the lightness and durability of a rust-proof frame.

The iroko detail on the coffee table surface adds an organic touch to the cold tones of the metal, breathing soul into the design.

With both visual lightness and structural solidity, Lina is designed for those seeking a natural balance in their garden without compromising on contemporary style.

# larix

SEATING SET

The Larix collection brings together the fluidity of natural forms with the disciplined language of design.

Balancing the warmth of the natural texture it takes its name from with the engineering precision in its structure, this series demonstrates a strong presence in the garden without creating visual weight.

Harboring a finely crafted balance in every detail, Larix transforms outdoor living from a mere comfort zone into an aesthetic experience. A lean, self-assured, and timeless style.

# vicenza

SEATING SET

Drawing its inspiration from the magnificent and symmetrical column order of Italian architecture, the Vicenza model settles into the garden with the solidity of a “foundation stone.” The decisive vertical lines and strong skeletal structure in its design reinterpret the rhythm and reassuring stance of Palladian architecture with today’s technology.

while the fine craftsmanship in the details softens this architectural rigidity, adding a sense of lived-in warmth; the overall dense and grounded form dominates the space it occupies.

Not just a piece of furniture, but a style statement built upon it.

# toscana

SEATING SET

The Toscana collection brings the philosophy of “slow living” from Italy’s captivating geography to your garden.

Combining the warm and sincere spirit of its namesake region with the strong skeletal structure of industrial design, this series achieves a harmony fueled by contrasts.

Its wide seating areas and enveloping cushions are designed for long afternoons spent under the sun.

Both visually satisfying and structurally uncompromising; a noble classic ready to take root in your garden.

DINING SET

*T*he Toscana Dining Group brings the Italian tradition of “uniting around the table” to the outdoors with modern solidity.

The series’ characteristic strong skeletal structure supports the wide table top like a pedestal, preparing an unshakable foundation for crowded family meals.

The ergonomic and comfortable structure of the chairs invites enjoyable conversations that last for hours.

Toscana is not just a dining set; it is that warm and deep-rooted meeting point of your garden where memories passed down from generation to generation accumulate.

# Sunbeds

Simple, elegant and unique.

# Çınar

SUNBED

*The Çınar Sun Lounger transforms the series' reassuring "deep-rooted" character into an individual ritual of rest.*

It is designed to offer that peaceful surrender you feel when lying under the shade of a magnificent tree and watching the sky.

While its wide and ergonomic reclining surface envelops you; its strong skeletal structure provides a sense of solid balance.

For those who want to slow down time while enjoying the sun and wind, a silent and proud monument rising in the quietest corner of the garden.

# hera

SUNBED

*H*era redefines the power of its mythological name with the concept of “shared comfort.” This double design, removing the individual boundaries of ordinary sun loungers, stands like a wide island rising on the lightness of the aluminum body.

While the cloud-like comfort offered by the thick cushions invites you to a shared rest, the intelligence of the design lies in the detail of “independence”: Thanks to the head mechanisms that can move independently of each other, you can freely determine your personal comfort angle even when side by side.

The noblest form of sunbathing together, yet resting at your own rhythm.

**Fabric** • Olefin  
**Frame** • Aluminium

	W	L	H

# pera

Sunbed

*T*he pera model transforms the generous comfort offered by hera into an individual privilege.

Carrying the genes of the double version, this design confines the lightness of the aluminum body and the enveloping softness of the thick cushions into a personal resting space.

While determining your own comfort angle thanks to the adjustable head mechanism, you draw an invisible curtain between you and the outside world.

A selfish but well-deserved pleasure zone where you can be alone with yourself even in a crowd.

# alezia

SUNBED

*A*lezia adds unexpected dynamism to its strong and unshakable skeletal structure.

Hidden wheels integrated into the rear legs of the design endow this authoritative stance with the capability of “freedom of movement.” Effortlessly adapting to you when you want to follow the sun or seek refuge in the shade, Alezia challenges the monotony of stability.

A resting experience rising on a solid foundation, yet as free and fluid as the wind.

A wide-angle landscape photograph of a dense forest. In the foreground, there is a thick canopy of green trees. The middle ground is filled with more trees, some of which are partially obscured by a thick layer of white mist or fog that hangs between the forest layers. In the background, a large, rounded mountain peak rises above the mist, its upper slopes also covered in forest. The sky is a pale, hazy greenish-white, suggesting a soft, overcast day. The overall mood is serene and ethereal.
